Summary Review	$500
Full Review	Seventy percent (70%) of all fees invoiced for the certification decision under review

_____

[1] All fees are stated and payable in U.S. Dollars, nonrefundable, and may be subject to applicable tax. All fees are subject to change at any time prior to invoice. One Base fee is assessed for each application; other fees are assessed only as applicable.

[2] The Base fee includes one survey event for one Level of Care delivered at one discrete facility represented by a unique address in the U.S. or Canada. Base – CARF Accredited applies if the facility delivers services currently accredited by CARF or is included in a submitted application currently pending for CARF accreditation with application fee fully paid. Base – Standard applies to all other service delivery facilities. Applies to applications submitted by March 15, 2026 (for survey timeframes starting between July 1, 2025 and June 30, 2026). Contact the **Certification Support Team** for Base fees in other countries.

[3] Applies to applications that include up to eight separately addressed service delivery facilities, if all such facilities are: commonly owned and operated; immediately adjacent to each other; jointly licensed in the name of the organization as a single treatment facility (i.e., one license number); and operated collectively to deliver the services utilizing common staff, documentation, and written procedures. Otherwise, a separate application and fees are required for each discrete service delivery facility seeking certification.

[4] Applies to applications that include one or more patient sleeping facilities that are separately addressed from the discrete service delivery facility. Contact the **Certification Support Team** for an estimate.
